REQUEST: Conditional Use to permit model homes in a Residential (R-12) District.

PROPOSED LAND USE:

Model homes (sales offices) not located within permanent dwellings are planned. Specifically, the applicant proposes to locate the model homes (sales offices) within four (4) modular office units until such time as construction of permanent dwellings to be used as model homes are complete. The model homes (sales offices) would then be temporarily located within the permanent dwellings, consistent with Ordinance requirements, until the project is complete.

PLANNING COMMISSION RECOMMENDATION

RECOMMEND APPROVAL AND ACCEPTANCE OF THE PROFFERED CONDITIONS ON
PAGE 2.

STAFF RECOMMENDATION

Recommend approval for the following reasons:

- A. Approval of the modular office units would be appropriate since use of the structures is temporary.

LAND USE

General Plan:

Lies within the boundaries of the Upper Swift Creek Plan which suggests the property is appropriate for residential use of 2.0 units per acre or less.

Area Development Trends:

The request property is part of a proposed development to be known as Fox Creek Subdivision which will be developed for single family residential use yielding a maximum density of 2.0 dwelling units per acre. Properties to the north are zoned Residential (R-15) and are occupied by single family dwellings or are vacant. Properties to the south and west are zoned Residential (R-12) and are part of the proposed Fox Creek Subdivision. Properties to the east are zoned Residential (R-12) and are part of the Fox Croft Subdivision. It is anticipated that residential use will continue in the area in accordance with recommendations of the Plan.

Zoning History:

On November 25, 2003, the Board of Supervisors, upon a favorable recommendation by the Planning Commission, approved rezoning of the request site and surrounding property from Agricultural (A) to Residential (R-12) with Conditional Use to permit recreational use.

Current Request:

In residential districts, model homes (sales offices) are permitted provided that, in addition to its permanent use as a dwelling, such homes may be used as a temporary real estate office. In this case, the temporary sales offices are proposed to be located first within four (4) modular office units and then within permanent dwellings within the development as permitted by the Ordinance. Since the modular office units are not dwellings, sales would not be permitted. This request seeks to permit the temporary sales within these structures. Proffered Condition 1 establishes the use of the modular office units as temporary.

The Zoning Ordinance further permits model homes (sales offices) in residential districts provided that the offices only market property within the development where they are located; the offices are incidental to construction activity taking place within the development; the offices are not the primary real estate office for the company marketing the development; and the offices are not used as construction offices or for the storage of construction equipment and/or materials. Proffered Conditions ensure these Ordinance restrictions are met in this case. (Proffered Conditions 2, 3 and 4)

CONCLUSIONS

While staff would not typically support the location of modular office units within a residential area because they fail to be compatible with planned residential dwellings, in this case, approval of the

modular office units would be appropriate since use of the structures is temporary. The Ordinance permits the location of the model homes (sales offices) within permanent dwellings on the property temporarily and therefore would not constitute the permanent location of sales offices in a residential area. The proffered conditions are similar to Ordinance standards for model homes and further ensure the residential character of the surrounding area will be maintained.

Given the foregoing, approval of this request is recommended.
